# HENG SENGTHAY

**Data Analyst Intern**

Phnom Penh, Cambodia | sengthay32@gmail.com
linkedin.com/in/heng-sengthay-19b202365 | github.com/Thay32-Heng

## OBJECTIVE

Third-year Data Science and Engineering student at the Royal University of Phnom Penh, targeting a Data Analyst internship. Comfortable cleaning messy data, running exploratory and time-series analysis in Python, and turning findings into clear dashboards and decision-ready summaries. Actively growing into data engineering.

## EDUCATION

**Royal University of Phnom Penh** **Expected 2027**

B.Sc. Data Science & Engineering - Year 3

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages:** | Python, TypeScript, JavaScript |
| **Data Analysis:** | Pandas, NumPy, Matplotlib, Jupyter, time-series, data cleaning |
| **Dashboards:** | Streamlit, Streamlit-Folium, CSV workflows |
| **Web & Tools:** | React, Vite, Tailwind CSS, Git, VS Code |

## PROJECTS

### Phnom Penh Precipitation Time-Series Analysis

Python / Jupyter / Pandas / Matplotlib

· Built and cleaned a 132-row monthly rainfall series for Phnom Penh (2015-2025,
· 15,689.7 mm total).
· Ran time-plot, seasonal and seasonal-subseries analysis to expose the yearly cycle.
· Identified the wet-season peak (703.62 mm, Jun 2020) and driest month (0.34 mm, Dec
· 2019).

github.com/Thay32-Heng/Phnom-Penh-Precipitation-Time-Series-Analysis

### Kasekor Vision (active build)

Python / Streamlit / Folium / Requests

· Interactive map prototype helping Cambodian farmers match crops to local conditions.
· Built the Cambodia map layer, a live weather lookup, and a searchable crop dictionary
· in Streamlit.
· Next: NASA POWER climate data, crop-soil scoring, and an offline mode for low-
· connectivity farms.

github.com/Thay32-Heng/Kasekor-Vision

### EduRisk Analytics

Python / Streamlit / Pandas

· Five-page Streamlit dashboard for student risk: attendance, scores and course load.
· Course + risk filters, attendance/score sliders, and one-click CSV export of the
· filtered set.
· Currently a course lab on a small sample dataset; wiring in a real dataset next.

github.com/Thay32-Heng/EduRiskAnalysis

### JamTlai - Offline Grocery Price Checker

TypeScript / PWA / Offline-first

· Offline-first PWA for family grocery stores with fast Khmer/English search.
· Dual retail/wholesale prices in KHR; works without a network connection.

github.com/Thay32-Heng/JamTlai

## ADDITIONAL

· Coursework: Data Mining, Data Structures & Algorithms, Statistics, Database Systems.
